

SIMPLY RELIABLE DISTRIBUTION

Rely on years of experience, expertise,
solid distribution relationships, and
above all, that we simply enjoy our work.

Passionate ICT distributor

We are the team of people who are enthusiastic about IT, technological trends, smart home solutions and even PC gaming. That is why we simply enjoy our work.

30 years of experience

We have been distributing ICT products for over 30 years and we cover the whole Czechia and Slovakia. We have long term relationships with our partners built on mutual trust.

Stability and growth

We have a solid position and a strong reputation in the market, we are financially stable and we reach new milestones every year. We have already reached an annual turnover of 120 millions EUR.

Expertise and specialization

We are a value added distributor who advises and provides service and trainings to our customers. We also cover specific areas such as photovoltaics, smart home solutions or surveillance systems.

Private brands

We develop own products under the brands XtendLan, Xtend Solarmi, Xtend Home and HAL3000 which include products for industry, entertainment and smart home. That's how we know how to take care of the brand in the market.

Tuned out logistics

We supply more than 33 000 products by more than 90 renowned world brands. We dispose of more than 4 200 m² of warehouse area and our logistic processes are simply fast and reliable.
